

The Association of Major Fly Fishing Clubs

2011 MAY Newsletter

All the Results – All the Reports – Each Month

Yet Another Apology!

Not a good start! There were a number of mistakes in the INDIVIDUALS scores in the April Newsletter. Including One Total. These were transcription mistakes and the official score sheets are accurate. All but one my fault! I have a technical glitch in my keyboard. It has got very slow so that if I type the same character twice, quickly, it does not always recognise the second stroke. It often only appears as 1. Sorry and will buy a new keyboard

It is always difficult to find a subject for the editorial in the May issue.

This is particularly so this year because the first of the Round Two matches is so late in the month. By the time I get the score sheet – match reports – photos, if I want to get the newsletter out by the end of the month this Editorial will have to be already written.

However I am on the periphery of a conflict at a small fishery where I get an invitation to fish.

A member sent some photos to the Environmental Agency of

some damaged fish to query a disease. Their response was that the problem was BAD HANDLING associated with Catch and Release.

The Secretary sought advice from me about principles for handling fish. There is a particular problem at this fishery because the banks are steep and you cannot get down to water to extract the hook whilst the fish is still in the water. They HAVE to be netted!

I offered the following as the way I deal with catch and release.

Firstly only use barbless hooks. I know the arguments about them penetrating deeply. But they go in easier and the COME OUT easier. **In all situations!!!**

Lay the fish, in the net, on the bank and cover it with your hand. It is unnecessary to grip the fish. There is often enough damp on the grass, or in the net itself, so you do not need to handle the fish with dry hands.

Put the fish back into the water in the net. By judicious use of the net handle it is ALWAYS possible to hold the fish upright until it swims away.

No hassle – No Damage!

A thief in Paris stole some pictures from Le Louvre

He got past Security. Stole the paintings and made it safely to his van

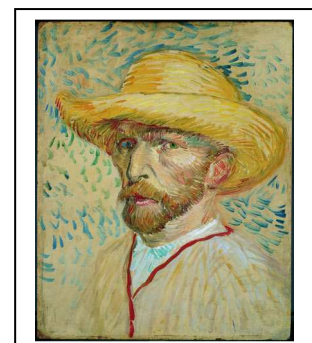

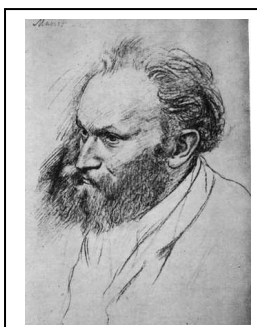

However he was captured only two streets away when his van ran out of gas

When asked how he could mastermind such a crime and then make such a silly mistake – HE REPLIED

I had no MONET

for DEGAS

to make the VAN GOCH

Group One – Round Two on Bewl Water A Bit of a Struggle in a Gusty Wind and Fish Well Spread Out

Mike Gunnell	6	12lbs 15oz

Best Bag 18lbs 8oz

Bill Rankin (Bewl Bridge)

Best Fish 3lbs 5oz

Nick Cox (Bewl Bridge)

John Dunmall reports that it was overcast and cloudy all day, with a stiff South Westerly of around 17 knots, gusting to 24.knots.

The resulting wind chill meant that the expected 13 degrees C. felt more like 10/11. This made the fishing 'hard work'!

The home team took all the honours with a team win – best bag – best fish

Bill Rankin–Best Bag

The fish seemed to be widely spread with most of the main area providing catches, albeit not in large numbers.

Bill's best bag came from two long drifts from Beaunman's Point to the Dam (six fish) and the remaining two drifting closer in on the Chingley Bank.

His method was to roly-poly a DI3 with a pair of Cormorant droppers and a Boodlace Boby on the point.

In direct contrast, Nick Cox's Best Fish came from the bottom of Hook Straight. There was a hatch of tiny midge going on and Nick scaled right down as small as 20's. He fished a floater and varied figure-of-eight retrieve. His 3lbs 12oz fish came to a size 16 Black Boobied Pheasant Tail nymph.

Bill's time bonus and Nick's Best Fish helped Bewl to take first place, even though they had fewer fish than Rutland Water F.A.

The average catch was 4 fish per angler and the average weight 11bs 14oz.

With only two anglers finishing and no blanks it was a good match.

Once again the Group decided to have a Post Match Meal and retired to the Swan in Lamberhurst, where they had a two course meal £8.00 a head.

Best Fish 3lbs 4oz

1. Sheena Goode (GWAFFA)
2. Richard Denny (Bewl)

Best Bag 19lbs 10oz

Ralph Painter (Bewl)

Ralph Painter of Bewl Bridge 'B' Team finished after only an hour and a half collecting 6lbs 8oz of time bonus. The total number of fish caught by all the other teams was greater than that of Bewl, but Ralph's bonus meant they came within 4oz of first place and managed to come second.

The total number of fish caught
 Tunbridge Wells 40
 Grafham Water 39
 Invicta 37
 Bewl Bridge **Only 33**

Conditions were good for the start of the match with light South Westerly winds, which became stronger as the match progressed.. Blue-sky gave way to patchy cloud as the

wind increased.

The main drifts were on the maim bowl, especially drifting along Chingley. The first two hours were the most productive, and as so often happens, when a lot of boats fish the same area, it became more difficult as the day progressed.

At the start of the match the fish were high in the water, with floaters and slow sink lines the most effective. The washing line, used by many anglers, kept the flies high in the water.

A few fish were caught on nymphs but David Little's report indicated that boobies and blobs were the most productive flies.

Tunbridge Wells T.F.S. are already on a roll with two first places. They have a big pool of seriously good anglers and it is possible to see them having a clean sweep of first's (never been done before)

This group had decided before the season that they would have a post match meal. They even managed to find more people for the meal that anglers who fished.

Best Fish 4lbs 5oz

Andy Croucher (Soldiers 'B')

As so often happens when almost everyone catches their limits, time bonus was the deciding factor. With each angler catching a limit it looked as though the Soldier Palmers 'B' had done enough to win.

buzzers to midge tips and Kelly greens, successful flies being blobs and boobies

(tequila variety), buzzers and diawl bachs.

A couple of boats went to the

In the end the results revealed that England Police, who had four fewer fish, had beaten them by 1lb 7oz. The Police time bonus of 23lbs 4oz, compared with the Soldier Palmer's of 17lbs was the deciding factor.

Sailing Club where fish were deeper and were caught using boobies and fast-sink lines..

The Coach and Horses at Brixworth provided the post match meal of chicken curry or

beef and ale pie, followed by rhubarb and apple crumble and custard – a really enjoyable day.

Russell Logan (Best Bag)

The wind, south westerly, was benign for the most part although picked up in strength throughout the day.

At the off most boats simply headed for the shallow water on the bank of the Holcott Arm opposite the lodge and anglers were into fish straightaway. First to eight was Mick Facey at 11 o'clock with Dave Summers close behind at 11:10.

A variety of methods were working, from floating line and
