## May

### Help!

Last year, if my memory serves me well, there were only three matches that either John, or I, did not attend.

Only three times did we ask the match organisers to send in a Match Report and photos. Even then there was one blank page.

It is only in the last three or four years that match organisers have not always been required to fill in a Match Report Form and send in with the Results Sheets – although the photos are fairly new.

At the moment it looks as though organisers will have to write the report and take photos for the following matches that are still to be fished

<u>Group</u>	<u>Venue</u>	<u>Date</u>	<u>Organiser</u>
<u>Group One</u>	Grafham	13 <sup>th</sup> . June	Grafham
	Pitsford	2 <sup>nd</sup> July	Fish Hawks
	Bewl	5 <sup>th</sup> . Sept	Bewl 'A'
<u>Group Two</u>	Draycote	24 <sup>th</sup> . June	Invicta 'A'
	Eyebrook	10 <sup>th</sup> July	Police
<u>Group Three</u>	Hanningfield	12 <sup>th</sup> . June	Hanningfield

It is possible that John will attend some of these matches, also Jeff, our new Vice President (when he gets back from working in the Bahamas). **I will let you know.**

Will we ever understand the ridiculous mysteries of trout behaviour?

At the Spring Match I fished with John – similar flies – same technique the only discernible difference was in leader material.

He landed nine – dropped three and missed some. I did not have a single take!

So went back to Grafham last Sunday and fished the same flies with the same technique in the same place. I caught the four best consecutive fish I have ever caught. Silver jets they were and the smallest was 3lbs 3oz.

That's what makes fly fishing so fascinating – you never know!

The anglers in the boat who rescued the overturned yachtsman were Martin Cobitis and Alan Stern. Not as previously stated

It was one of those boxes where you slot your flies into pre formed foam. So I filled it up! Nymphs on one side – lures etc on the other and it looked very VERY pretty thro' the plastic sides.

There were over 500 flies on the nymph side and on Drayote it fell off the boat seat and every EVERY – EVERY fly fell out of its slot.

Now I have a magnet attached to my fly tying vice to hold spare hooks and dubbing needle so every hook becomes a little magnetic. Five hundred little nymphs all magnetised together like a malignant ball is not what you want in the middle of a days fishing.

It won't hold the flies in the slots. Yet another piece of useless rubbish from the tackle trade!

### Rubbish Tackle

This year I decided to tidy up all my tackle, starting with my fly boxes. So bought a new fly box! Expensive it was as well – top of the range! Competition hook max. size it stated!

## Buzzers – Buzzers all the way at Draycote for the Group One - Round Two Match

I'm sure that someone must have caught a fish on lures, or bobbies or some other type of fly, but nobody I spoke to after the match said so. Everyone spoke of buzzers

Not only that, but it seemed that only one way of fishing them was successful. STATIC or nearly so!

After what seems like the windiest spring on record, Draycote was a flat calm at the start of the match. A breeze from the North did begin in mid afternoon. Every now and again light cloud cover kept the temperature on the water comfortable

And even before the start the water was covered in buzzers!

*Draycote was a flat calm at the start of the Match*

Before the match started the occasional fish could be seen taking fly off the surface just outside the harbour.

At the start everyone rushed off either to the North Shore or Rainbow corner. Only one boat waited by the harbour until it was clear.

This proved a wise decision because in the boat was the first to finish, the best fish and the best bag. Dean Rudd fished a Midge Tip line with four buzzers almost static. It took him about an hour to get both the method and the precise place (about 25 yards out from the Dam Wall) but then he caught every few minutes.

Sadly the situation was different for his boat partner who didn't finish.

The fish were so reluctant to take anything but static buzzers that a number of anglers reverted to fishing the bung. Legal in A.M.F.C. matches, and very successful on the day.

We had the post match meal in the onsite cafe. It was an excellent meal. The cafe seems to be open all day and if organisers can persuade them to stay open it is an excellent venue. It is probably the best on the circuit at the moment. I know it has been booked for the Autumn Match.

# Bewl is Difficult after a Busy Whitsuntide Weekend

**‘The sort of day when you knew it was better to be out fishing rather than in an office, because it was such a lovely day’**

Quote from John Caldwell

## STATISTICS

No Limits

Average numbers of fish per angler 1.9

Average weight 1lb 14oz

Best Fish 3lbs 7oz caught by Keith Lawrence (T. Wells)

Best Bag 13lbs 2oz caught by Ralph Painter (Bewl ‘B’)

## WINNING TEAM

Invicta F.C. ‘A’

Picture below

Best bag was caught by Ralph Painter of Bewl ‘B’. He used washing line on a floater, black Diawl Bachs with a black booby. They took the nymphs in the morning and the booby in the afternoon

*(Reports by David Little and Jeff Hickson)*

The weather for the day was light cloud that reduced as the day wore on. The day started with light NW winds. A bright rather than sunny day and as the day went on the light breeze varied direction

The water had been fished quite heavily over the bank holiday, which didn’t help the results.

Practice day had shown the fish were in limited locations.

The top of Hook, Rosemary Lane, Ferry point, Chingley and Playground banks

These are the areas where most of the fish were caught on the day. It should be recognised that it was not an easy day's fishing for most but, as always, some were successful

Most fish were caught ‘twiddling’ near the surface. Most successful were floating lines. Using a washing line technique with black Diawl Bach nymphs etc.

## After Two Days of Strong Winds Things Improve for the Group Three Round Two Match on Grafham

After two days of high winds the weather settled down and fishing conditions for the match were good. The wind was a Westerly at about 8 knots, for most of the day.

In the morning there was good cloud cover and in the early afternoon there was a squally shower before the sky cleared for the match to end in bright conditions.

Fish were found on the Lodge bank and at Hedge-end, but anglers also caught at Deep-water point and G bank.

Fish were taken on lures and buzzers, it was noticeable that pleasure angler who could anchor were able to catch on buzzers, but for the drifting boats in the match presentation was far more difficult.

Some anglers had success using a Di 7 with a Boobie and two buzzers, but for others it was case of using a Di7 and lures, although when the wind dropped nymphs could catch they were not the most productive method.

\*\*\*\*

### Peter Waterhouse of Invicta 'B' writes

I took my first fish within the ten minutes on a size 12 cruncher close in on the Lodge Bank and then lost one off my point fly, a red diawl bach. But very soon the pressure of boats moved the fish out, and my boat partner, Terry Bayes, of Mid-Northants switched to a di7 and had contact with two fish in short order.

I switched lines, but retained my nymphing leader – so fished two Boobies with a nymph on the middle dropper. It appeared that the fish had a preference for lures in 'startling puce',

\*\*\*\*\*

With a much superior time bonus Mid Northants came very close to winning even though they had four fish less than Grey Lags.

### Grey Lags Winners

With two consecutive wins Grey Lags are developing a significant lead of over five points from Grafham 'B' and Soldier Palmers 'B'.

\*\*\*\*\*

**The successful Grey Lags Team**
