

NEWSLETTER - 2016

August - September

We have a First!

Over the years, and after one or two close calls, the Group three Round Three Match on Eyebrook is the first A.M.F.C. match cancelled because of the wind.

The organiser informed Clubs two days before the match that the forecast was so bad that, after consultation with the fishery, he had decided not to chance everyone turning up and the boats not being allowed out.

I am writing this having just received notice of the cancellation. I use two Forecasts. One called XC Weather which was suggested to me by an amateur pilot. One of the advantages of this site is that it gives average wind speeds and **Gusts**. This suggests that at 1.00 pm the wind would gust at 37 mph. This is defined on the Beaufort Scale as **A Moderate Gale**.

At the same time the Met Office forecasts average winds of 22 mph (As does XC Weather) which Beaufort defines as **A Fresh Breeze**. Even this makes casting difficult

I don't mind being out in a breeze but a gale is when every sane boat angler rushes for shelter.

I have been subsequently told that not only did the Manager take the boats off the water, by 2.00pm they closed the whole estate as a safety measure.

*And God created
wind for a reason*

If the group cannot find an alternative date it will not be the first time we have had an incomplete season. Some of us remember the blue/green algae which closed Rutland and Grafham mid-season and curtailed a lot of competition arrangements. This included at least one round of the A.M.F.C. (Which then was only one group)

As I write this it seems unlikely that I shall receive a report of the Group One Match on Pitsford on Sunday 4th September.

This newsletter will be polished a week tomorrow and if I have not had a report by then, this will be the first time for two years there has been a blank page in the Newsletter.

Beaufort Wind Scale

| Scale | Description | Speed mph |
|-------|-----------------|-----------|
| 0 | Calm | 1 |
| 1 | Light Air | 1 to 3 |
| 2 | Light Breeze | 4 to 7 |
| 3 | Gentle Breeze | 8 to 12 |
| 4 | Moderate Breeze | 13 to 18 |
| 5 | Fresh Breeze | 19 to 24 |
| 6 | Strong Breeze | 25 to 31 |
| 7 | Moderate Gale | 32 to 38 |
| 8 | Fresh Gale | 39 to 46 |
| 9 | Strong Gale | 47 to 54 |
| 10 | Whole Gale | 55 to 63 |
| 11 | Storm | 64 to 75 |
| 12 | Hurricane | 76+ |

Group One - Round Five
On
Pitsford on Sunday 4th. September

NO REPORT

Only one point separates Bewl 'A' and Soldiers 'A'

But

Soldiers 'A' have a large weight advantage

Invicta 'A' Strengthen their Position On A Spectacular Grafham in Round Five

What can you write about a match when, provided you do not fish too deep, limits came quickly from everywhere using any method.

That was Grafham for the Round Five Match on Monday 26th. September.

Limits came from the Western End of the North Shore, particularly Hedge End.

Limits came from two feet of water in Gaines Cove.

Limits came from the middle of the reservoir drifting towards the North Shore.

Limits came to slow sinkers using the traditional washing line.

Limits came to nymphing,, particularly shrimp patterns.

Limits came to dries.

And an average of 7.1

If there was anything to disappoint on the day it was the fish, which did not have the stunning silver appearance that Grafham fish usually have. However everyone had at least one fish in excess of 2lbs in their bag and John Wingrove had the best at 4lbs 2 oz.

Catch and release reared it its head again with three anglers finishing before noon. Best bag was Russell Bell (Bewl) with 21lbs 11oz.

It will be the biggest change imaginable if Invicta 'A' don't become Group Two Champions. But only 3 pts separate three bottom three teams

After the Cancellation of Round Four Group Three have an Interesting Day On Grafham for Round 5

After having the Round Four Match on Eyebrook cancelled because of Storm Force Winds they found Grafham also windy for the Round Five Match.

There had been some differences about cancelling two days before the match. In the event it was a wise decision because no boats were allowed out and it was so bad that the while estate was closed after midday.

For Round Five, the conditions on the day were also windy with gusts of 20 knots from the SW making simple tasks like making up a leaders and tying on flies a bit challenging for the best of anglers.

South Westerly's are often very poor for fishing on Grafham and they certainly brought a dramatic change in the fishing from the practice day when there had been good catches from Rainbow point, through the mouth of Savages to Sanctuary bay.

On the day the best bags came from boats drifting on to the dam from I buoy right across towards the South end of the dam. There were also fish to be had drifting across the middle from F buoy towards Church bay and E buoy towards G and the willows.

The boats were well spread out across the whole reservoir with one cluster around Savages and Sanctuary looking for the fish that had been there during practice and another group at the dam, which from experience can produce fish in the prevailing conditions.

Despite some bright periods the fish were still up in the water and best methods was using boobies and fabs point and top dropper with nymphs such as Hares Ears or Diawl Bachs or Hoppers in-between.

These were fished on slow to fast intermediates depending on anglers set up, The author was using a co-polymer leader and ended up using Di3 to catch well.

So often we fish matches in two halves – the morning fishing well and the afternoon becoming more difficult if not impossible, but I saw fish all day making long drifts across the reservoir.

During conversation after the match it became clear that there were probably as many fish dropped as were caught and fish coming short, there were only 4 limits recorded. Grafham was really on form and there were some classic grown on fish caught which gave excellent sport.

There was one of the earliest finishes ever seen in an A.M.F.C. match. Terry Bayes of Mid-Northants only took an hour and a half to catch his limit. It is very rare to get a finishing time before 12.00 noon. Very few have achieved this by 11.34 am.

Possible, but very unlikely that Soldier Palmers can overtake Hanningfield. So we should see Hanningfield return to Group Two in 2017.
